

As a class brainstorm a project that could be completed around your school or maybe another school in your county/ community

Is there an area of your school that could be turned into outdoor seating for lunch? Maybe build or expand a school garden that would allow your ag program to share harvest with the school cafeteria? Or how about a nature trail that includes tree & plant identification markers?

**The ideas are limitless!**

Write a brief description of your class project here?

*Unfortunately, we often have very big, great, and impactful ideas that can't become a reality until the proper funds are received. Grants are often a great source of funding for many schools and other nonprofit organizations.*

Visit the following site: [www.eeingeorgia.org](http://www.eeingeorgia.org) – Select News from the toolbar at the top then select Grants from the drop down menu

Look over the list of grants until you find one that interests you and that you think will fit the needs of your class project

Name of Grant:

Amount of money rewarded:

Deadline to apply:

Target Group/ Eligibility: *Is this only for teachers? Only for students of certain age group?*
