

## Nursery/Landscape Career Project

You and your partner will research the careers in the category given to you and create a PowerPoint or Poster for a **MAJOR** grade/ 300 Points Total. Your project should be personalized to you! **PLAGARISM IN ANY FORM WILL RESULT IN AN AUTOMATIC ZERO.**

Projects will be due at the beginning of class on \_\_\_\_\_. Turning in your project 1 day late will result in a 50% deduction in your grade. You will be graded on your overall effort.

The following information needs to be included in your project:

- What are the daily activities and unique situations that are involved in this career?
- What skills and abilities would make someone successful in this career?
- What is the starting salary? What is the average salary?
- What education or training is necessary for this career?
- Where could someone in Georgia receive this education or training?
- What are some of the specific job opportunities in this career? Where could you work in Georgia?
- What could someone do in high school to better prepare for this career?
- What sources did you use? (Specific websites, not search engines – Google is not a source)

Your presentation needs to be at least 3 minutes long. Do not read directly from a PowerPoint slide or your poster; know the material you are presenting. There should be at least 5 pictures total in your presentation that cover all the careers in your category.

I pulled these career categories from [www.thelandlovers.org](http://www.thelandlovers.org). This would be a good website to get you started.

Remember you and your partner are researching **ALL** the careers listed in each category!!

### LANDSCAPE INSTALLATION & MANAGEMENT

Technician  
Foreman  
Manager

### NURSERY & GREENHOUSE PRODUCTION

Worker  
Production  
Equipment Maintenance

### ARBORICULTURE
