

I am not working to become a State FFA Officer for the fame or for the cool "ASSOCIATION" jackets; I want to have the platform to speak to thousands of FFA members from all different backgrounds and walks of life in order to instill the same fire and passion that was given to me during my first state convention in 7th grade. I want to serve because I would have an even greater outreach for lighting the spark that could change the lives of America's next generation of leaders and agriculturists.

The definition of the word service is this; "the action of helping or doing work for someone". Georgia FFA, I would to dedicate a year of service to you as a 2020-2021 State Officer. In doing so, I want to help grow and develop this amazing organization that we know as our family. I want to make meaningful connections and wonderful memories with all of our state's members. If given the chance, I want to positively impact as many of your lives as I can, and I promise to serve you with all my heart!

I would like to serve as a State Officer because serving in this position allows me to demonstrate to students and the public that you do not have to have an agriculture background or be raised on a farm to be successful in the FFA and that everyone can be successful in the FFA if they put their mind and heart into it. There was one classmate that pushed me to join FFA and it was the greatest decision of my life, and if I can that one person for someone else that would mean the world to me.

Newton's first law states that an object at rest remains at rest unless acted upon by an external force. FFA has been that external force that has pushed me to step out of my comfort zone and grow as a leader. Newton's third law states that for every action, there is an equal and opposite reaction and because FFA has pushed me towards seeking success, I want to give back to the organization by pushing FFA members towards personal growth, premier leadership and career success. After all, FFA member's opportunities truly are limitless!

I would love to serve as one of the 2020-2021 State Officers for the opportunity to help other students grow, just as this organization has grown me into a passionate leader for agriculture. By being a state officer, I will be able to be to serve as an advocate for this organization, as well as inspire new members across the state to be involved and develop through their agricultural and leadership experiences.

I want to serve as a state FFA officer for many reasons. I want to serve Georgia farmers and agricultural teachers and just strive to be the best that I can be. I want to serve as an FFA state officer so that I can be more of the positive role model that I always try and be. The FFA isn't just a club. To me, I personally feel the FFA to be a community. And as a state FFA officer, I will aspire to be the greatest leader of that community as I can be!

"I believe!" We need to believe in something. FFA has been a blessing because it has given me something to believe in. This organization has changed my life in many ways and I have become a better leader, friend, and worker because of it. As a state officer, I would like to pay it forward in service to Georgia FFA members as it has been paid to me by chapter, area, and state officers. I ask for the opportunity to serve you as a Georgia FFA Officer for the 2020-2021 year as we grow in belief of ourselves together.

FFA gives me a feeling of importance, acceptance, and accomplishment. I have wanted to serve as a state FFA officer since I heard Jake Harris, state officer, speak in 2018 about his experiences with the FFA organization. When I attended the National Convention 2019 the feeling was like no other. The unity of FFA members from around the nation under one roof was amazing. I have loved being a part of FFA, even before I zipped up my blue corduroy jacket the first time. I want to serve as a leader and show more of my love for this organization.

The feeling when I see a deep sea of blue jackets or the smiles worn. Us, the next generation, coming together to advocate for the largest industry that drives our nation. The personal growth and confidence students can achieve. These are some of the reasons why I'd be honored to serve as a State Officer, yet I know the harvest I'd reap if given the opportunity will hold much more. I wish to make an impact on others, just as I was impacted by this organization, and to follow the footsteps of previous state officers—all while creating my own.
