

2019 Georgia FFA Discussion Meet Questions

Friday, April 26, 2019 at the 91st Georgia FFA Convention

1. In our modern world, the rapid dissemination of information and opinion about agriculture and food technologies can make it difficult to distinguish fact from fiction. Given these challenges, how can Farm Bureau best protect farmers' and ranchers' access to production technology options?
2. As the Voice of Agriculture, how can Farm Bureau be more inclusive of all agriculture and production practices? This includes, but is not limited to, women in agriculture, organic production, fresh produce, forestry and aquaculture.
3. Technology is one of the driving forces for innovation and advancement in agriculture. How can the industry attract the best and brightest minds from STEM (Science, Technology, Engineering, and Math) into agricultural careers?
4. Money talks. How can farmers implement market trends and develop responsive business plans to generate value-added ventures and farm profits?
