Call for GVATA/ABAC-Agricultural Education and Communication Department Research Poster Abstract Submission

Through a partnership between GVATA and the Department of Agricultural Education and Communication at ABAC there will be a research poster session at each GVATA Mid-Winter Conference.

It is important to share and disseminate research that has potential impacts on School-based Agricultural Education (SBAE) in Georgia. Equally important, when data has been collected using the state-wide Agriculture Teachers' Listserv, results need to be shared with the profession. Poster abstracts should be submitted by agriculture teachers, pre-service teachers, graduate students, and college and university faculty who conducted studies that 1) utilized the state-wide listserv and/or 2) have implications for Georgia SBAE.

Submission process:

- Submission of a 250 word abstract by December 15, 2021
- To submit, follow: https://abac.az1.qualtrics.com/jfe/form/SV_2iBE5F33EV6ngAm
- Preparation and presentation of a poster at the GVATA Mid-Winter Conference

Guidelines for Abstracts:

- Accepted abstracts will be a concise summary of information. A high-quality abstract contains the following key elements (without designating them as such): (1) a brief introduction, including objectives and purpose of the study; (2) relevant experimental conditions indicating the scope of study or survey (authors of predominately philosophical works may substitute other appropriate criteria); (3) observations, results, or data (for abstracts: data should be in summary form and not presented in tables or graphs) - philosophical abstracts must demonstrate the application of said philosophy; and (4) a concise summary including implications and recommendations.

Guidelines for Posters (posted and presented at GVATA Mid-Winter conference:

- Posters should be **no smaller** than 36 inches wide by 24 inches high;
- Posters should be **no larger** than 48 inches wide by 36 inches high; with preferred size being 48X36.
- Each poster should contain the following information:
 - Introduction (need for the study);
 - Purpose/objectives;
 - Methods of data collection;
 - Results/Data;
 - Discussion/Implications/Recommendations
 - References
