

As the great philosopher Hannah Montana once said, "Life's What You Make It." To me, service is the same. You can treat the role of state officer as a platform to be seen from, or a platform to serve from. While Hannah served looks and multiple songs that SLAP, (we're looking at you, The Climb!) she also used her platform to be serve her supporters, and treated them like her friends. As a state officer, I can't promise any songs on the Billboard top 100, but I can assure you that I will always put your best interest first!

I am not working to become a state FFA Officer for the fame or for the cool "ASSOCIATION" jackets; I want to have the ability to speak to thousands of FFA members from all different backgrounds and walks of life in order to instill the same fire and passion that was given to me in my first state convention in 7th grade. I want to serve because I would have an even greater platform and out reach for lighting the spark that could change the lives of America's next generation of leaders and agriculturalists.

Each year that I have been in FFA, my passion for it and agriculture has grown. I want all members to feel that they belong. I want them to know that nothing is impossible, and that they are valued. I love informing others about FFA, and the endless opportunities agriculture has to offer. I enjoy serving others, learning their story, and bringing a smile to their face. Most of all, I want to give back to those that have inspired me the most: the members and advisors. Without them, there would not be FFA or Agriculture Education.

I want to serve as a State FFA Officer because I want to share and promote the positive impact that FFA has had on my life. I want to serve as a role model to Georgia FFA members through serving as a State FFA Officer. I look forward to working with my fellow teammates, networking with members across the state, and meeting new people that promote agricultural education. I am confident that I can take on these responsibilities and thrive in this position as a representative of Georgia FFA.

Not only do I have a passion for agriculture, but I also have a LOVE for helping others. I would love nothing more than to serve as a Georgia FFA Officer and represent this great organization. By being a state officer, I will be able to serve as an advocate for this organization, as well as inspire new members across the state to be involved and develop through their agricultural and leadership experiences.

Success isn't measured by your paycheck or the car you drive, but it is measured by the impact you have on those around you. Georgia FFA has changed my life for which I will always be thankful. In the pursuit of success, I want to serve as a 2019-2020 Georgia FFA Officer to have an impact on more than 42,000 FFA members that represent the industry that is integral to my past, present, and future. I would be humbled to represent this organization as a leader that learns and lives to serve.

No matter who you are or what you have accomplished, you can find your place within the FFA. The life changing experiences that FFA has given me along with my FFA advisors and fellow FFA members have shaped me into a confident, goal-oriented individual. I want to give back to this organization that has done so much for me and countless others since it was founded in 1928. The FFA and agriculture are truly my passions, and I would be honored to represent them as a 2019-2020 Georgia FFA State Officer!

I want to serve as a Georgia state FFA officer because I know how much of an impact the FFA has had on my life and I want to share that with other FFA members both current and future. I believe that as a state officer I will be able to share the qualities and knowledge that I have gained through FFA with those around me that share the same passion for agriculture that I do.

Inspiration is something that can be hard to come by, but when the right person comes around, they can make you feel like you can accomplish anything. That is what happened to me when I met Avery Duncan. He inspired me to become something greater than I thought I ever could. I want to serve as a state officer and impact the lives of FFA members not only in our state, but FFA members all around the county. I would be honored to serve Georgia and be a member of the 2019-2020 State Officer team!

I want to serve as a Georgia FFA State Officer because I want to be a positive example to the members in this organization. Serving would allow me to not only share my love and appreciation for FFA and Agriculture Education, but I would be able to have an impact on members who are pursuing their interest in leadership and agriculture.

I want to serve as a State Officer for this reason: the members. Serving the over 42,000 members in our state is something I've desired for years. I take pride in wearing out corduroy jackets, having tucked tally wackers, and being in the buzz of excitement FFA brings. Being a part of FFA alone is an honor but serving those within the FFA would be my honor. I wish to make an impact on others, just as impacts were made for me through this organization. I wish to follow the footsteps of previous State officers- all while creating my own.

Serving the Georgia FFA has always been a huge dream of mine. When I went to convention last year and I saw how much fun the officer team had it made me want to be just like them. I want to go to different chapters in different cities and talk about what I love, FFA. Being on this amazing officer team will bring me closer to the FFA Foundation and lead me to the understanding of Georgia citizens. I want to serve the community and the Georgia FFA Associationership and agriculture.
